Our event will benefit **CamPower for All**. A charity in memory of our daughter Cameron. Cam, born in 2000 was diagnosed with Leukemia at six weeks of age. Through the wonder of a bone marrow transplant and subsequent recovery, she was pronounced cancer free at age five. Her life however, frequently faced complications as a result of what her little body endured at such a young age. At 7 years old she was followed by six different medical teams at Johns Hopkins Children Center. At age 8, in St Louis awaiting a double lung transplant, the world lost a beautiful, courageous, and tough little girl. Her spirit continues to inspire the community, friends, and family.

CamPower For All's mission is to provide aid and support to local families and healthcare givers. Everything we do, benefits children just like Cam in making their hospital a little bit better.
